The Honorable Kimberly D. Bose, Secretary THE FEDERAL ENERGY REGULATORY COMMISSION 888 First Street, N.E., Docket Room Washington, D.C. 20426-001

Re: Kilarc-Cow Creek Hydroelectric Project, FERC No. 606 License Surrender Application

Dear Secretary Bose:

Pursuant to 18 CFR Part 6, Pacific Gas and Electric Company (PG&E), as owner and operator of the Kilarc-Cow Creek Hydroelectric Project, FERC No. 606 (Project), files with the Federal Energy Regulatory Commission (FERC) the attached License Surrender Application (LSA). The LSA includes:

• Volume 1: Initial Statement, Executive Summary, Exhibits A, B, C, D, E, G¹

• Volume 2: Appendices A through I, including Appendix A the Proposed

Decommissioning Plan

• Volume 3: Appendices J through L

• Volume 4: Appendices M through O²

Project Background:

The existing 5 megawatt (MW) Project is located on South Cow Creek and Old Cow Creek in Shasta County, California, and consists of two developments (Kilarc and Cow Creek developments). Project features collectively include 2 forebays and associated dams; 5 diversion dams; 20 canal sections, flumes, and tunnels, together with associated spillways; 1 siphon; 2 penstocks; 2 powerhouses with associated tailraces, switchyards and equipment; and transmission facilities. PG&E proposes to surrender its license to operate the Project and to decommission Project facilities.

PG&E did not include Exhibit F because it is not relevant to an application to surrender a license.

² Per 18 C.F.R. s. 16.7(d)(2)(v)(B), confidential cultural information has been removed from the Cultural Report in Appendix M of the LSA. The full Cultural Report will be filed with FERC as required by the Section 106 consultation.

The Honorable Kimberly D. Bose, Secretary FEDERAL ENERGY REGULATORY COMMISSION

Re: Kilarc-Cow Creek Hydroelectric Project, FERC No. 606

March 12, 2009

Page 2

Section 106 Consultation:

On April 23, 2008, PG&E requested that FERC designate PG&E as the non-federal representative for the purpose of Section 106 consultation with the California State Historic Preservation Office pertaining to the mitigation of the effects of Project decommissioning on historic resources. Pursuant to 36 CFR § 800.2(c)(4), FERC granted the request (undated letter from Mr. Robert Fletcher (FERC) to Ms. Stacy Evans (PG&E) received June 16, 2008).

Endangered Species Act Consultation:

On April 23, 2008, PG&E requested that FERC designate PG&E as the non-federal representative for informal consultation under the Endangered Species Act with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service pertaining to Project decommissioning. Pursuant to Section 7 of the Endangered Species Act, FERC granted the request (undated letter from Mr. Robert Fletcher (FERC) to Ms. Stacy Evans (PG&E) received June 16, 2008).

Protection, Mitigation and Enhancement Measures, and Proposed Decommissioning Plan:

In the LSA, Exhibit E, Section E.4 describes PG&E's proposed protection, mitigation and enhancement (PM&E) measures relating to Project decommissioning. Appendix A, the Proposed Decommissioning Plan, describes PG&E's proposed disposition of Project facilities. The PM&E measures and Proposed Decommissioning Plan reflect the Kilarc-Cow Creek Project Agreement (Agreement) executed in 2005 between PG&E, resource agencies and non-governmental organizations³, as well as consultations with resource agencies and interested parties, and resource studies undertaken during the preparation of the LSA. As described more fully in the LSA's Executive Summary, in the Agreement, PG&E agreed not to file an application for new license and, instead, agreed to support the decommissioning of the Project. In exchange, the other signatories agreed to support a scope of decommissioning which would address specific subjects, but provide PG&E flexibility to address these subjects in the most cost-effective manner while assuring adequate protection and reasonable enhancement of environmental resources.

PG&E's decision to decommission the Project was based in large part on an expectation of a cost-effective decommissioning process. Consequently, PG&E respectfully requests that

³ The Agreement's signatories are: U.S. Fish and Wildlife Service, California Department of Fish and Game, National Park Service, California State Water Resources Control Board, National Marine Fisheries Service, Friends of the River, Trout Unlimited and Pacific Gas and Electric Company.

The Honorable Kimberly D. Bose, Secretary FEDERAL ENERGY REGULATORY COMMISSION

Re: Kilarc-Cow Creek Hydroelectric Project, FERC No. 606

March 12, 2009

Page 3

FERC accept and adopt in its decommissioning order the intent of the Agreement, the scope of the Proposed Decommissioning Plan, and the proposed PM&E measures.

License Surrender Application Distribution:

All parties that may have an interest in the Project will receive compact discs that contain Volumes 1 through 4 in electronic format. The LSA is also available on the Project website: http://www.kilarc-cowcreek.com/. The resource agencies and interested parties that have been actively participating in the license surrender process will receive electronic copies of the LSA. PG&E will also make a copy of the LSA available at the following libraries:

- Shasta Public Libraries Redding Library (1100 Parkview Ave., Redding, CA 96001)
- Whitmore Library (30607 Whitmore Rd., Whitmore, CA 96096)

PG&E looks forward to working with FERC and other interested parties in the license surrender process.

If you have any questions regarding the LSA, please contact PG&E's Project Manager for the license surrender, Stacy Evans, at (415) 973-4731.

Very truly yours,

David Moller, Director

Hydro Licensing
