Pacific Gas and Electric Company is a corporation of the State of California and is not claiming preference under Section 7(a) of the Federal Power Act.

6.0 PERTINENT CALIFORNIA STATUTORY AND REGULATORY REQUIREMENTS.

6.1 The statutory or regulatory requirements of the State in which the Project is located that affect the Project, as proposed, with respect to bed and banks; and to the appropriation, diversion, and use of water for power purposes; and with respect to the right to engage in the business of developing, transmitting, and distributing power, as well as any other business necessary to accomplish the purposes of the license under the Federal Power Act are:

California Fish and Game Code § 1602: Requires that parties notify the California Department of Fish and Game ("CDFG") prior to conducting any work in a streambed.

California Water Code § 102: Allows for appropriation and use of water for power generation.

California Water Code § 13160; Title 23 California Code of Regulations § 3855: Regulates the filing and issuance of water quality certificates to applicants otherwise required to obtain such a certificate under federal law.

California Water Code § 6102: Requires owners of dams to cooperate with the California Division of Safety of Dams ("CDSOD") in the inspection and maintenance of dams.

California Public Utilities Code, Division 1, § 201 et seq.: Regulates the right of a public utility to produce, generate, transmit, or furnish power to the public.

6.2 The steps which the applicant has taken or plans to take to comply with each of the laws cited above are:

- PG&E will submit a § 1602 notification to CDFG should work not proposed in this LSA be required in a streambed;
- PG&E has the water rights necessary to operate the Project;

- PG&E will file an application for a water quality certificate with the State Water Resources Control Board within 60 days after FERC issues a Notice of Ready for Environmental Analysis (“REA”) under the National Environmental Policy Act (“NEPA”);
- PG&E cooperates with CDSOD on annual inspections of the Project dams; and
- PG&E has demonstrated its ability to engage in the business of developing, transmitting, and distributing electric power under the relevant California statutes.
